DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed March 19, 2007 have been fully considered but they are not persuasive.

The amending of the claims with the language "computer readable medium storing" overcomes 35 U.S.C. 101, however, there is still the outstanding issue of the Applicant claiming a signal, which is non-statutory subject matter. Applicants have also defined a computer readable or computer usable medium as transmission media, which includes electromagnetic, optical, and infrared (See Section 0013 of the Specification) thus any claim comprising the above computer readable or computer usable medium language can render a scenario wherein the Applicants claim a signal, which is non-statutory subject matter (Please See Page 55 of the Interim Guidelines).

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. The claimed invention, as defined in Claims 11 – 20, is directed to non-statutory subject matter.

Applicants have also defined a computer readable or computer usable medium as transmission media, which includes electromagnetic, optical, and infrared (See Section 0013 of the Specification) thus any claim comprising the above computer

readable or computer usable medium language can render a scenario wherein the Applicants claim a signal, which is non-statutory subject matter (Please See Page 55 of the Interim Guidelines).

Allowable Subject Matter

4. The following is a statement of reasons for the indication of allowable subject matter:

Claims 1 – 10 are allowable for the same reasons set forth in the Office Action dated March 8, 2007.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
